The details and mood of the collection Tamashi are inspired by the beauty that is in everyone, and every thing. This collection is inspired by the beauty of the soul, the finer things that make a person who they are. Physical appearance is only a part of a person, but it does not define their spirit.

This collection utilizes a mix of darker, sinister colors mixed with bright and soft colors. The silhouettes and construction in this collection consist of high neck, fitted seams, unsettling shapes, and heavy pleating. There is also use of unconventional trims, featuring lace up closures, and braided hair details. There is beauty in the unsettling.
